The University of Dundee's Centre for Energy, Petroleum and Mineral Law and Policy (CEPMLP) is a centre of excellence for the study of law, policy, economics, management, dispute resolution and leadership for the international energy and natural resource sectors.

Our professional development seminars, delivered by highly experienced sector specialists and industry leaders, are attended by professionals from natural resource and energy companies, financial institutions, law, accounting and consultancy firms, international organisations, government ministries and academia from around the globe - thus creating a world-wide platform for practical interaction and networking opportunities.
